

CYCLONE™ HYBRID BLADES

COMBINES THE BEST FEATURES OF A CONVENTIONAL AND BEAM BLADE INTO ONE!

FEATURES & BENEFITS

The Cyclone™ Hybrid Blade from Michelin combines the windshield hugging features of a conventional spring loaded blade with the anti-snow build-up features of a beam blade for superior, streak and noise free wiping in rain, ice, and snow.

- 1. Dur-iflex™ Cover** Provides Maximum Flexibility and Protects the Blade from Clogging with Road Debris, Ice, and Snow
- 2. EZ Lok™ Connector System** for Replacement in Just Minutes. Fits 98% of Vehicles
- 3. Riveted Smart Hinge** Reacts to the Windshield Shape Across the Entire Windshield Wipe Movement
- 4. Smart-Flex™ Secondary** Holds Wiper Ends Down on the Windshield for Outstanding Wiper Performance
- 5. Independent Suspension Tertiary** Adjusts to Windshield's Shape to Help Maintain Complete Wiper Blade Contact
- 6. Premium Rubber with Duri-glide™ Coating** for Smooth, Quiet Wipes
