

# INTEGRATED FILTER GLADHANDS

FEATURING AN IN-LINE FILTER FOR SUPERIOR AIR SYSTEM PROTECTION

Maintenance is easy and requires only a 3/8" hex key.

Designed for simplified air line protection, these gladhands from Tramec Sloan feature an integrated filter built into the body. The serviceable filter cartridge captures contaminants and allows air to bypass if clogged.

## FEATURES & BENEFITS

- Reduces Dust & Debris from Entering the Air System
- Hard Anodized Body Provides Excellent Corrosion Resistance along with Stainless Steel Clamps & Wear Plates
- Color-Coded Composite Swivel Cover Fits Snuggly Over the Seal to Protect the Air System While Uncoupled
- Quarterly Maintenance Requires Only a 3/8" Hex Key
- Service Kit Includes Replacement Filter and O-Ring
- Eliminates the Need for a Separate Line Filter, Fittings, Mounting Hardware, and Installation Labor
- Available in 38° and Standard Straight Styles as well as 45° and 90° Swivel Mounted Versions
- Assembled & Tested in the USA!

Color-coded swivel cover provides protection while uncoupled.

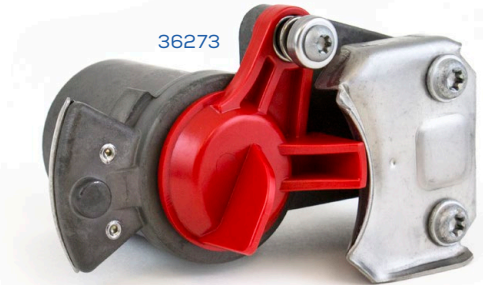

Straight style available on 45° and 90° swivel mounts.
