

PRODUCT BULLETIN

EFFECTIVE IMMEDIATELY: DISCONTINUED & PRODUCT CHANGE NOTICE

Tramec Sloan is pleased to announce the addition of **SureGrip™ handles** to our product line! Going forward, these new rubber hose grips will replace the plastic Dura-Grip® handles found on our 3-in-1 Wraps and Tractor-to-Trailer hose assemblies. Products featuring our aluminum grips are also being discontinued.

- All current wrap and hose part numbers that utilize plastic Dura-Grips will now feature **SureGrips** instead. Coiled Air assemblies with Dura-Grips are not affected. Please see the following tables for a full list of relevant part numbers.
- This is a running change and customers may initially receive mixed product until we are fully switched over.
- Ordering and lead times on these items are unaffected by the running change.
- **Our new rubber SureGrips provide the strain relief of a spring while also offering a comfortable, ergonomic grip for improved leverage and the confidence of a secure gladhand connection.**
- Assemblies utilizing the plastic Dura-Grips or aluminum grips are still available, but only by special request.

If you have any questions or concerns, please contact your **Tramec Sloan Sales Rep** or **Customer Service** at 800.336.7778 or customerservice@tramecsloan.com
